Attn: Lynn Kunzler

RECEIVED
MAR 29 2004
DIV OF OIL GAS & MINING

Dear Mr. Kunzler:

We appreciate the way you and Joelle have assisted us in obtaining permits to investigate quarry sites for the Eureka EPA Remediation Site. We have now selected the Lime Peak Quarry site for our rock material.

Anderson Engineering Co., Inc. (AECI) requests you to cancel or modify the existing Notice of Intention to Commence Small Mining Operations as follows:

- a. Keystone Ridge Quarry / Mammoth Quarry – Division of Oil, Gas and Mining (DOGM) file number S/023/085 – approved November 3, 2003. It is requested that this permit be cancelled.
- b. Fitchville / Lime Peak Quarry – DOGM file number S/049/044 – approved February 4, 2004. It is requested the Fitchville portion of this permit be cancelled and the Lime Peak portion be amended to cover a five acre parcel.

The reclamation work on the Keystone and Fitchville sites that were disturbed will be completed as weather permits. The disturbance on the Lime Peak site will be incorporated into the quarrying operation.

Atlantic Richfield Company has made a lease agreement with Chief Mining Company for the use of their Lime Peak Quarry property, as described in DOGM file S/049/044. Atlantic Richfield Company is submitting with this letter another Notice of Intention to Commence Small Mining Operations for five acres at the Lime Peak Quarry Site for your approval. Atlantic Richfield will operate the quarry and provide the required surety and will meet all State and Federal regulations for operation and reclamation.

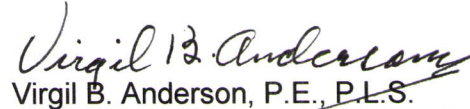

Atlantic Richfield is also submitting for your approval a Notice of Intention to Commence Small Mining Operations for a five acre parcel permit for crushing, screening and rock storage of material that has been mined in the quarry (DOGM file number S/049/045). Rock material will be hauled by truck from the quarry to this processing site and stored until it is required for use on the Eureka Remediation Project. The processing area will be operated by Atlantic Richfield as noted above and they will provide the surety for reclamation.

A location map entitled Lime Peak Rock Quarry and Processing Site is attached. This map shows the general layout of the two facilities.

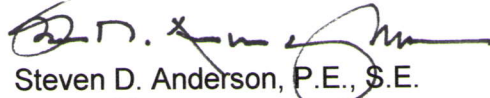

Atlantic Richfield has provided you with the \$17,000.00 for each of the facilities. Your expeditious approval of these changes will be appreciated.

If you require any additional information, please contact us at (801) 972-6222.

Sincerely,
ANDERSON Engineering Co., Inc.
